

## Forum Courage goes International: „Leading Change in a fragile world!“

- You are leading change processes on a personal, organizational, local, political or global level?
- You are interested in knowledge sharing, collegial counseling and transatlantic networking?
- You are open to explore a new format which combines four essential fields for „leading change in a fragile world“?

Forum Courage is an invitation to people of all cultural, religious and political backgrounds that appreciate coming together in a circle for creative thinking, deep feeling and courageous acting.

*The origin:*

Forum Courage is a format that has been invented by Ann Forker and Henrik Langholf from Staufen, a beautiful little city between Freiburg/South Germany and Basel/Switzerland.

About two years ago fears were strongly rising in the German society concerning the side effects of having a lot of new refugees in the country. New right wing politicians started to appear on the stage in a way that obviously was ignorant to the dignity of all. The democratic system started to feel threatened. Political developments in other countries such as Turkey, Poland, Italy, England and the USA were demonstrating as well how fragile the common sense is concerning key questions of how we want to live together. As response to all of this the Forum Courage was founded, where new perspectives have been rising for local citizens to deal with above named topics.

Already in the beginning Ann and Henrik had the vision of sharing the Forum work on an international scale. As they are on a trip to California in February 2019 to share their work and enjoy nature's beauty, **they want to invite you to this first international Forum Courage in Topanga State Park on Friday, February 15<sup>th</sup>, 2019, from 5 – 8 pm.**

As they are leading next to the Forum Courage exciting new projects such as the „**PearlDiver Community**“ ([www.apearldiver.com](http://www.apearldiver.com)) and the „**Water Festival Freiburg - Transforming Ocean Plastics through Collective Innovation!**“ ([www.zukunftsmoderation.com](http://www.zukunftsmoderation.com)) , they are interested in connecting with innovative leaders in social, political and business affairs in the LA area.

*This is what we want to offer to you on this evening:*

**Part 1: Which future are you trying to create?**

Introducing ourselves and our projects based on 5 powerful questions

**Part 2: What exactly needs your courage now?**

A creative ritual to re-connect with our deep resources

**Part 3: How can we enhance the state of „feeling connected & supported“ and reach out in the way we always desired?**

Creating a practical change roadmap, that combines individual and connected action steps for the weeks to come

**We are very much looking forward to see you!**
